

Hanse-Wissenschaftskolleg
Institute for Advanced Study

Advances in Affective Neurosciences

Preliminary Schedule

Delmenhorst, February, 10 - 12, 2011

Organizers:

Art Jacobs and Hauke Heekeren

Free University of Berlin

Thorsten Fehr and Manfred Herrmann

University of Bremen

Venue:

Hanse-Wissenschaftskolleg
Institute for Advanced Study

Lemkuhlenbusch 4

27753 Delmenhorst

Germany

Program

Tuesday, February 10, 2011

- 18:00 – 19:00 Opening Keynote: Heinz (Berlin)
Reward learning dysfunctions in psychiatric disorders
- 19:00** ***Get Together (Welcome Dinner)***

Friday, February 11, 2011

- 09:00 – 09:15 Introduction by HWK and organizers
- 09:15 – 10:00 Keynote: Heinrichs (Freiburg)
Neuroendocrinology of human social interaction
- 10:00 – 10:30** ***Coffee Break***
- 4 Talks (25 min + discussion)**
- 10:30 – 11:00 Heldmann, Brunlieb, Tempelmann, and Münte (Magdeburg/Lübeck)
Vasopressin and social decision making
- 11:00 – 11:30 Gamer, Zurowskia, and Büchel (Hamburg)
Different amygdala subregions mediate valence related and attentional effects of oxytocin in humans
- 11:30 – 12:00 Walter (LoE, Berlin)
Neural mechanisms of emotion regulation: From genes to disorder
- 12:00 – 12:30 Prehn, Jacobs, Heekeren, Menninghaus, and Bajbouj (LoE, Berlin)
Talking (about) emotion: Effects of verbalization on emotion regulation
- 12:30 – 13:30** ***Lunch Break and press conference***
- 4 Talks (25 min + discussion)**
- 13:30 – 14:00 Bajbouj, Grimm, and Heuser (LoE, Berlin)
Consolidating emotions
- 14:00 – 14:30 Rosenblau, Kliemann, Kappelhoff, Dziobek, and Heekeren (LoE, Berlin)
Training socio-emotional competencies: Development and evaluation of a new SOCIAL COGNITION TRAINING TOOL (SCOTT) for adults
- 14:30 – 15:00 Jacobs, Altmann, Bohrn, Lubrich, Lüttke, and Menninghaus (LoE, Berlin)
Towards an affective neuroscience of literary reading

15:00 – 15:30	Koelsch (LoE, Berlin) <i>Towards a neural basis of music-evoked emotions</i>
15:30 – 16:00	<i>Coffee Break</i>
	4 Talks (25 min + discussion)
16:00 – 16:30	Fehr, Herrmann, Roth, and Strüber (Bremen) <i>BRemen Aggression INventory: A video inventory on aggression and violence - Evaluation and application in functional neuroimaging</i>
16:30 – 17:00	Krämer, Kopyciok, and Münte (Magdeburg/Lübeck) <i>Aggressive social interactions - Results from neuroimaging and cognitive electrophysiology</i>
17:00 – 17:30	Regenbogen, Herrmann, and Fehr (Bremen) <i>Violent computer games and functional neuroimaging - Individuality in the processing of virtual and realistic scenarios</i>
18:00 – 20:00	<i>Dinner</i>
20:00	Panel discussion (topics to be discussed)

Saturday, February 12, 2011

	4 Talks (25 min + discussion)
09:00 – 09:30	Frühholz and Herrmann (Bremen) <i>The neural dynamics of interference control during the perception of facial affect: Evidence from fMRI and EEG data</i>
09:30 – 10:00	Kliemann, Dziobek, Steimke, and Heekeren (LoE, Berlin) <i>Role of the amygdala in reflexive orienting on emotional faces in autism</i>
10:00 – 10:30	Kuchinke, Schlochtermeyer, Urton, and Jacobs (LoE, Berlin) <i>Processing emotional pictures and words</i>
10:30 – 11:00	Peters and Büchel (Hamburg) <i>Episodic future thinking reduces reward delay discounting through an enhancement of prefrontal-mediocortical interactions</i>
11:00 – 11:30	<i>Coffee Break</i>
11:30 – 13:00	Round Table / Panel Discussion (topics to be discussed)
13:00	<i>Lunch</i>
	Departure
