

**Course Description: PM2 Mol Molecular Biology Stream Module 2**

6 ECTS

Module Coordinator: Prof. Dr. Sørge Kelm

Offer: winter semester

Assessment of module: written examination

**Related courses**

- Methods in Molecular Biosciences (lecture)
- Current Research Topics in Molecular Biosciences (seminar)

**Learning outcomes**

The students

- know a wide range of methods used in molecular biosciences.
- discuss the research areas of the participating teachers and the technologies applied in their laboratories and scientific approaches suitable for exploration of metabolic pathways based on selected examples.
