

# Science Slam

The MAPEX Doctoral Qualification Programme supports doctoral candidates in acquiring transversal skills and competencies useful for future leading tasks inside and outside of academia.

In cooperation with scienceslam.de, we are offering a workshop on how to perform scientific presentations in the format of a science slam.

## Workshop Description:

A science slam is a specific and popular communication format for early career researchers who want to present their research in short, comprehensible and entertaining ways in front of a large and heterogeneous audience. It represents a perfect platform and opportunity to practise and enhance your oral communication skills early on in your academic career. The workshop will provide you with the necessary tools and know-how to be successful in this respect.

Furthermore you will get the special opportunity to actively participate at a science slam event taking place on the 7<sup>th</sup> of May here in Bremen.

## Date:

**08.04.2024:** 10:00 – 14:30 /

Afternoon: Individual follow-up work

**09.04.2024:** 10:00 – 14:30
